Gasfitting information sheet No. 16

Caravan gas installation checklist

Customer		**Date**	
Caravan identifying details (e.g. VIN or Registration number)		**Gas certificate No.**	
		Job No.	

Item	C	N/A	Notes
General requirements			
Gas supply verified			
Installation tested and gastight			
Gas pipework			
Open ends sealed			
Design			
Location			
Supports and anchoring			
Corrosion protection			
Gas pipework			
Materials and components suitable			
Isolation valves			
Pressure regulation			
Overpressure protection			
Test points			
Expansion and contraction			
Mechanical protection			
Flexible connections			
Earthing			
Pipeline identification			
Disconnection			
Soundness testing			

Sizing			

Item	C	N/A	Notes
Appliance installation			
Appliance suitable for use (e.g. not portable appliances)			
Appliances have either the flame logo, SDoC or Endorsed			
Mounting and restraints			
Location suitable			
Clearances			
Disconnection			
Room-sealed			
Combustible surfaces			
Temperature safety			
Labelling and signage			
Appliance input			
Flues			
Design			
Manufacturer's specifications followed			
Installation and location			
Materials			
Structure and supports			
Clearances			
Temperature safety			
Draught diverter			
Terminal clearances			
Ventilation			
Sizing of openings			
Location of openings			
Air not contaminated			
Mechanical ventilation			

Item	C	N/A	Notes
LPG cylinder, compartment and equipment installation			
Location			
Clearances			
Weather protection			
Ventilation			
Drainage			
Restraints			
Hoses and fittings			
Labelling and signage			
Commissioning			
Purging			
Controls tested and set			
Safety devices tested and set			
Gas rating			
Combustion testing			
Consumer instructed on use			
Consumer provided instructions			
Certification			
Gasfitting certificate(s) issued			

C = Compliant

N/A = Not applicable

Disclaimer: This table is not exhaustive. Requirements of AS/NZS 5601.2 should be consulted when assessing the installation.

Table adapted from AS/NZS 5601.2:2020 Appendix J

Test results			
Test pressure		Duration	
Pressure loss			
Notes			

Appliance 1			
Type		Model	
Location		MJ/hr	
Restraint		Clearances	
Appliance 2			
Type		Model	
Location		MJ/hr	
Restraint		Clearances	
Appliance 3			
Type		Model	
Location		MJ/hr	
Restraint		Clearances	

Gasfitters name	Signature	Registration No.
